Paradise & Wilderness

Paradise & Wilderness is an expert in safaris in Tanzania and a specialist in holidays in Zanzibar, owned by the Dutchman Bert Schoonvelde. Years ago, he came to Zanzibar for a holiday and fell in love with this magnificent place.

"Now, I am lucky enough to have four Beach Resorts and a Boutique Hotel on Zanzibar, a Safari Lodge in the Selous Game Reserve and several more Safari Lodges located near or in world's most famous national parks: Serengeti Ikoma, Serengeti Bolongonja, Lake Natron, Lake Manyara and Arusha."

This combination of culture, incredible white sand beaches and the largest wildlife sanctuaries in Africa makes Tanzania unique.

Bert Schoonvelde:
"My holidays in Tanzania were too short to get to know this magical country, so I stayed here and made my dream my job!"

Safari Types

FLY-IN SAFARI

Flying in over the Serengeti provides an aerial sneak-peek of the adventure that awaits below. With clear skies you will be able to take delight in spotting some of the Serengeti resident wildlife as your plane descends for a landing on the Ikoma airstrip. On arrival you transfer into your safari jeep and begin exploring the Serengeti and Ikoma surroundings before enjoying a sundowner at your home away from home in the wilderness - Africa Safari Serengeti Ikoma. With over 14,000 square kilometres making up the Serengeti, you may not get the chance to see the national park in its entirety but any of these itineraries will allow you the opportunity to cover some serious terrain and see the park in great depth. From Ikoma you can either fly back to Arusha straight or make a stop-over in Africa Safari Lake Natron to explore this intriguing landscape with a soda lake and volcanoes.

FLY-IN & DRIVE ROUND TRIP

Combining the best of both worlds, a Fly-in and Drive allows you to experience the vast plains of the Serengeti from the heights above as well as exploring all the wondrous terrain and animals on offer throughout the parks of the northern Circuit from the open rooftop of a 4x4 safari vehicle. Be flown in across the open plains of the Serengeti, winding your way back by vehicle, adventure doesn't get much more all encompassing than this.

DRIVE & FLY BACK SAFARI

Arusha is starting point for your coming days on the road. Leaving the busy city, passing locals going about their day as you venture into more remote village territory. Over the countryside the brightly coloured Maasai can be seen herding their cattle. In the coming days of your journey you will cover many kilometres and vastly varying terrains. There is no shortage of wildlife on your safari adventure and you are in safe hands with our aptly experienced, highly knowledgeable driver guide. When your African road trip comes to an end and you board the plane on your way back to Arusha, you can peer out over the wings of the plane and see the Serengeti from a different angle. The perfect time to reflect on some of what will be sure to be your greatest memories in life.

CLASSIC DRIVE SAFARI

Experience the best of the open road on this once in a lifetime adventure into the Tanzanian wilderness. The journey in a 4x4 safari vehicle with a pop-up roof can be tailored to your liking as the options are endless. Starting and ending in Arusha, you can design your dream adventure or let one of our safari consultants create the perfect 4x4 safari itinerary according to your specification.

The Great Migration

The annual "Wildebeest Migration," is undoubtedly one of the most monumental natural spectacles in the world! Television does no justice to the migration of the magnificence of the wildebeest species and a live experience of this exhibition of nature from one of our safari accommodations is a must-do on your 'bucket list'.

National Parks & Game Reserves

SERENGETI NATIONAL PARK THE BEST-KNOWN WILDLIFE SANCTUARY IN THE WORLD

Endless plains and stunning savannah

With vast open plains and an abundance of wildlife as far as the eye can see, the Serengeti is a safari maker's dreamland. As the park is so expansive, it is ideally recommended to spend several days exploring. Serengeti National Park spans across 14,763 square kilometres and is easily the largest and arguably most popular of the northern Circuit National Parks. The Serengeti is host to the annual Wildebeest migration, when some six million hooves pound the open plains, as more than 200,000 zebra and 300,000 Thomson's gazelle join the wildebeest's trek for fresh grazing. Buffalo, elephant, giraffe, lion, hippo and hyena are also frequently sighted throughout the Serengeti.

GRUMETI GAME RESERVE (WMA)

SERENGETI ECOSYSTEM

Path of the wildebeests

From May to July the wildebeest migration passes through the Grumeti Game Reserve on their way to northern Serengeti so a perfect time to see the migration in action. During other times of the year this area has amazing wildlife on show, as it is situated on the Serengeti National Park border and has the Grumeti river running alongside. Here you will have a good chance to spot the Black rhino as this area is home to 11 (!!) of these majestic but endangered creatures.

IKORONGO GAME RESERVE (WMA)

SERENGETI ECOSYSTEM

Rivers run wild

Ikorongo Game Reserve is located along the left side of the northern part of Serengeti National Park. The small reserve was established in 1994 by the Tanzanian government to maintain a safe pass for the great migration. Ikorongo Game Reserve is part of the Serengeti ecosystem, one of the oldest in the world; it protects the largest and most varied concentration of wildlife on the planet. Ikorongo is rich in flora and fauna species as the reserve has several rivers crisscrossing, and where there is water there is wildlife; elephants, rhino's, giraffes, buffalos, greater and lesser Kudus, hyenas, baboons, zebras, lions, wild dogs, Grants and Thomson gazelles, topis, warthogs and duikers to name a few. Easy-going game drives can be made here in low emission 4x4 safari vehicles with open sides to give you the best view on wildlife and the astonishing natural surroundings.

SERENGETI NORTH & MARA RIVER

SERENGETI NATIONAL PARK

Northern Serengeti is where the great migration crosses the Mara river

Witness the most amazing wildlife spectacle in Africa at the Mara River. The Mara river is most famous for the legendary wildebeest crossing, a dramatic event, which is featured in countless wildlife documentaries. One of Tanzania's best kept secrets is the fact that nearly half of the Mara river is situated in the northern Serengeti versus the Masai Mara's segment in Kenya. While there are hordes of vehicles just a few miles upriver in the Masai Mara, the Serengeti side is virtually devoid of tourists. Not only the Mara river is a special part of this part of Serengeti, Bologonja is a lush and idyllic spot hidden away in the remote reaches of the north. Many varieties of colorful birds can be found here including kingfishers, hoopoes and rollers. Bologonja's flourishing resources support some unusual antelope species including Mountain reedbuck and Steenbok. The nearby Larelemangi salt lick is a haven for wildlife and large herds of buffalo and elephant are regular visitors.

SERENGETI CENTRAL / SERONERA AREA

SERENGETI NATIONAL PARK

Big cat capital

Serengeti's Seronera area is located in the south-central region of the park and is well known for the large number of big cats; the lion, leopard and cheetah are often spotted here. However, the elephant, giraffe, hippo, crocodile, buffalo and impala are also well known inhabitants. The area is very popular as it is one of the most likely spots to watch a kill. The landscape is dotted with "kopjes", rocky granite or Gneiss outcrops, over 550 million years old and in high favour by some of the cats as look-out points while hunting.

LAKE NATRON NATIONAL PARK

THE MAIN BREEDING SITE FOR 2.5 MILLION LESSER FLAMINGOS

Fabulous flamingos

Shimmering amid the sun-scorched Kenyan border northeast of Ngorongoro Conservation Area, this 58 km-long but just 50cm-deep alkaline lake should be on every adventurer's itinerary. The drives from Mto wa Mbu or the northern Serengeti are remote, with a desolate, other-worldly beauty and an incomparable feeling of space and antiquity. The roads pass through untravelled Maasai land, with small bomas and big mountains often in view in a wild, cauterised landscape. From June to November at the lake itself, around two million flamingos gather – it's one of East Africa's most stirring wildlife spectacles. And close to the southern end of the lake, the views of Ol Doinyo Lengai volcano are splendid.

LAKE MANYARA NATIONAL PARK

TREE-CLIMBING LIONS AND OVER 400 SPECIES OF BIRDS

Large ecological variety in a small area

Lake Manyara National Park, an underestimated gem of the safari parks, offers a large ecological variety in a small area. The alkaline soda of the lake appeals to impressive numbers of birds thriving on its water. More than 400 species have been identified and one of the highlights are the thousands of strolling flamingo's. From the entrance of the park, the road winds through a groundwater forest area where baboon troops can be seen hanging about on the roadside and in the trees. On the grassy banks of the lake the wildebeest, giraffe, zebra and the large buffalo can be seen grazing the day away. The mahogany and acacia trees are inhabited by the famous tree-climbing lions, if you're lucky you might spot them lazing on a tree branch.

NGORONGORO CRATER

THE WORLD'S LARGEST, INACTIVE, INTACT AND UNFILLED CALDERA

Is commonly referred to as the 8th wonder of the world

Nothing can prepare you for the breathtaking beauty that is the Ngorongoro Crater. As you stand at the viewpoint looking out over the crater, clouds hovering around the tip of the rim with the cool mountainous breeze in the air, there is no mistaking the divinity of mother nature. The Ngorongoro Crater is a world heritage site, the world's largest intact volcanic caldera and is commonly referred to as the 8th wonder of the world. Due to its natural borders, there is an abundance of wildlife throughout the conservation area which is home to the Big Five including the African Black Rhino as well as hyena, zebra and elephants to name a few. The Ngorongoro Crater is an absolute must on any northern circuit itinerary.

TARANGIRE NATIONAL PARK

HOME OF THE ELEPHANTS

The highest concentration of wildlife outside Serengeti

Tarangire National Park is a fun and easy park to explore. Wildlife is abundant and exposed due to the park's more compact and open terrain making it easier to see wildlife both up close and from a distance. The park is only a short 2 hour drive from Arusha and in close proximity to Lake Manyara. It is 2850 square kilometres making it the sixth largest park in Tanzania and offering the highest concentration of wildlife outside the Serengeti. Tarangire is known for its large herds of elephants, which can be viewed at close range. Other animals likely to be seen throughout Tarangire are; wildebeest, zebra, buffalo, gazelle, rhino, warthog, impala, python, lion, leopard and over 50 species of birds.

ARUSHA NATIONAL PARK

HOME OF MOUNT MERU

The place to find Mount Meru, alkaline lakes and a highlight for birders

Arusha National Park is one of the smaller national parks in the northern circuit, and located at the foot of Mount Meru in Arusha. This beautiful park is mostly known for the rare black and white Colobus monkey that is often seen here. An amazingly gracious animal to see swirling between the trees with its long arms and long black and white fur. The park consists of mountain areas combined with rainforests and lakes. It is a paradise for bird watchers, since you can find many tropical species here that are rarely seen anywhere else. Examples are the Greater flamingo and the Silvery-cheeked hornbill. During game drives you might see less wildlife due to the forest, but still the park is definitely worth a visit. Tired of sitting in the car? Canoe safaris and walking safaris are possible here!
